

Section III – Annex 11  
**Emergency Equipment / Resources**

---

***12. Plant Medical Equipment***

The plant Dispensary is located in the Administration building. The Dispensary is staffed Monday through Friday during regular business hours by an R.N. At all other times, the Quality Control Lab Technicians provide first aid treatment. The Lab Technicians maintain current certification by the American Red Cross in CPR and first aid treatment. A part-time physician maintains hours at the plant on Wednesday, A.M.

The Sauget plant currently uses Midwest Occupational Health in Belleville, IL. A Corporate Medical Department and Corporate Toxicology Department exist at the Richmond, Virginia headquarters. The plant medical staff has direct access to these departments.

Following is a list of emergency medical supplies which may be available for use in a plant emergency. (NOTE: this list represents typical inventory of these items. Stock may be allowed to deplete by 50% before reordering.)
